#### Family Re-union.

The Bunger family, of this county, has long been one of the best known and most highly respected families of the Greenbrier Valley. On the 26th of September, at the old homestead at Bunger's Mill, four miles west of Lewisburg, and now the property of Jos. H. Bunger, Esq., a family re-union was held—the day being the anniversary of the marriage of Dr. F. F. Raymond, of Frankford, with Miss Eliza Bunger, and also the birthday anniversary of Mrs. Minnie E. Pearse, of California, (the granddaughter of the late Mrs. Arch Lewis, nee Matilda Bunger,) and now visiting her many relatives in this county. Owing to the rainy weather many of the family connection were unable to attend, but still there were fifty-three present, ranging in age from six months to eighty-six years. They came on horseback, in wagons and carriages, until the house was well filled, and one may well imagine how joyful was the meeting of many of them who had not met before for well nigh two decades. The morning hours were pleasantly spent in exchanging congratulations and good wishes, in recalling the scenes, and incidents and experiences of by-gone days. At one o'clock dinner was announced and all, old and young, big and little, sat down to a feast, which, in its rich abundance and excellent quality, did ample credit to the well known hospitality of the old homestead. The afternoon was spent in merry games and singing some of the sweet old songs of days gone by. The occasion was one of the greatest pleasure and enjoyment to all present, and in days to come will be recalled as

#### To the Public School Teachers Greenbrier County.

Vacation is over and the school session for the autumn and I would insist that each employ his leisure hours by the course of Professional Reading prescribed by the State Superintendent. Teachers will find this reading explained in their program substitute work for 1893. The books to be read this year are—

- 1, Quick's Educational Reading.
- 2, Education in the United States.
- 3, Elements of Education.
- 4, Normal Teaching.

These books can be had at the following named places and prices: No. 1, D. Appleton & Co., \$1.26 each. No. 2, American Book Co., Cincinnati, at \$1. No. 3, American Publishing Co., 1020 Arch Street, Philadelphia, at \$1.50.

"The law requires that each teacher shall study this prescribed course, and shall pass a satisfactory examination on these subjects before they can receive a certificate before they can receive a certificate from Institute attendance. Each teacher shall arrange to examine each part of the course in the specified time, and issue certificates of proficiency to those that pass a satisfactory examination on the same. Respected
